OUR COMMITMENT TO QUALITY

The Champion Assortment range is the most comprehensive range of its type assembled in Australia. The range has been designed with the specific requirements of the professional automotive and engineering workshop in mind. The result is that you get what you need in the right quantity, and most importantly, at the right price.

The packages are tough, convenient, replenishable and reusable. Each Assortment product type is labelled with the Replacement Pack part number for ease of replenishment. Champion Parts is accredited to AS/NZS ISO 9001 International Quality Standards, and is committed to quality throughout all facets of the Organisation.

INTRODUCTION TO THE NEW CHAMPION CATALOGUE

Hints on how to get the most out of using the catalogue every day...

Thank you for choosing Champion Parts quality fasteners. We hope you find our new catalogue informative and that it becomes your first reference for all your fastener requirements.

Champion Parts is pleased to present our range of Kits (reusable boxed assortments), Replacement Packs (for kits), Bulk products, and most importantly our extensive range of fastener Merchandisers which provide exceptional returns to our retail customers.

In order to help you get the most from our catalogue we have updated the format in a number of ways:

1. All Kits have an image to assist in selecting from our extensive product range.
2. Products conform to Australian and International standards with full traceability.
3. We have provided cross referencing throughout the catalogue to make it easier to navigate to the required products.
4. There is a logical sequence throughout: Kits - Replacements Packs - Bulk.
5. Our standard pack bulk section has been simplified for easier selection.
6. Our Merchandiser section provides a complete listing of product supplied on each merchandiser.
7. All Assortments and Kits contain a carefully selected range of complementary components, covering the most commonly used popular products.

The following information will assist those who are new to the Champion quality fastener range.

STAINLESS STEEL HOSE CLAMPS

Premium quality clamps to provide positive, reliable connections and sealing.

MICRO CLAMPS 8mm Band

Tiny. Tough. Precision Engineered.

Easy to install in confined areas. Narrow housing, low profile means no wings and no protrusions. Boasts one of the highest screw torques in the field with slotted 1/4" hex head screw. Maintains highest sealing pressures with only 10 inch-pounds of applied screw torque.

'RY' STANDARD SERIES 12.8mm Band

Nickel bearing stainless steel band and housing.
Zinc plated, carbon steel screw.

'SS' STAINLESS SERIES

Band and housing of SAE Standard 300 Marine Grade Stainless Steel. Slotted 5/16" hex head screw is SAE Standard 305 Stainless. The extra high nickel alloy stainless steel meets extreme demands of corrosive and underwater environments.

Always check the band is securely tightened.

Features:

- Band and housing to SAE Standard 300 Stainless Steel
- One piece stainless steel housing with interlocked construction
- Combined screwdriver slot and hex head screw design allow use of screwdriver, socket or spintite.
